By -

Taylor Francis Ltd, United Kingdom, 2014. Paperback. Book Condition: New. 234 x 158 mm. Language: English . Brand New Book. A comprehensive and important collection that includes essays by some of the leading figures in the field. Essential reading for anyone interested in risk assessment. Professor Kristin Shrader-Frechette, University of Notre Dame The editors are to be congratulated for bringing together a distinguished international group of theorists to reflect on the issues. This volume will be sure to raise the level of debate while at the same time showing the importance of philosophical reflection in approaches to the problems of the age. Professor Jonathan Wolff, University College London This volume brings together top authors from the fields of risk, philosophy, social sciences and psychology to address the issue of how we should decide how far technological risks are morally acceptable or not. The underlying principles are examined, along with methodological challenges, public involvement and instruments for democratization. A strong theoretical basis is complemented by a range of case studies from some of the most contentious areas, including medical ethics and GM crops. This book is a vital new resource for researchers, students and anyone concerned that traditional approaches to risk management...

### Reviews

*It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
