A Text-Book of Experimental Psychology (Classic Reprint)

By Charles S. Myers

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 454 pages. Dimensions: 9.0in. x 6.0in. x 0.9in. Excerpt from A Text-Book of Experimental Psychology For some time past the lack of a Text-book on Experimental Psychology has been keenly felt. The literature of the subject is now so scattered and so profuse, that a student must have at his command a small library of books and periodicals if he wishes to pursue a course of independent reading. In endeavouring to supply this want, I do not attempt to offer a systematic Psychology. On the contrary, I assume that the student is already familiar with the elements of general psychology. He may have had the opportunity of attending an introductory course of lectures on the subject which were accompanied by demonstrations, and in that case he will have observed how artificial is the line of cleavage between general and experimental psychology. I assume, too, that he does not approach the detailed study of experimental psychology in ignorance of the general structure and functions of the nervous system. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of...
