Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.This publication, Army Techniques Publication ATP 4-92 (FM 4-92) Contracting Support to Unified Land Operations October 2014, describes Army contracting support elements role, organization and operations in support of unified land operations. ATP 4-92 is a revision of Field Manual 4-92, Contracting Support Brigade, last published in 2010. Operational contract support (OCS) is the process of planning for and obtaining supplies, services, and construction from commercial sources in support of combatant commander directed operations. While varying in scope and scale, OCS, and its subset of expeditionary contracting capability, is a critical force multiplier in unified land operations, especially long-term stability operations. ATP 4-92-along with the publications referenced throughout this manual-is intended to provide commanders and their staffs with the doctrinal and policy tools necessary to properly leverage the full spectrum of Army OCS capabilities in all phases of the operation. The publication also serves as a guide for worldwide deployment and employment of expeditionary Army contracting organizational capabilities. ATP 4-92 clarifies existing doctrine, which was focused on the CSB. Updates include mission command philosophy, the revised contracting support organizational structure, other...
