Geographic mapping training for high school students regional geographical knowledge is weak. with the sophomore year review of regional geography (geography. world geography) to improve spatial orientation and preparation of supplementary books The book can also book review as a grade three regional geography. Regional geography is the basis for learning high school geography and phylogeography in principle. the law of learning is the region to support and ultimately end up to a specific geographical space. To learn geography. to learn geography. to achieve winning results in the entrance. students must fill in the blank Picture stories the way. formed in the brain clear thinking map. asked the distribution of the well known geographical things and empty. The regional geography is clearly defined in the entrance examination outline. the regional map is often the carrier and the background of the geographical or cultural Science Examination. and regional location is the first step in problem solving. But in terms of grade students. due to various reasons such as the examination and evaluation. the lack of knowledge of regional geography. mind maps can not be formed. a bottleneck to learn and improve the geographic results. Thus. the sophomore review of regional geography. to develop students' spatial thinking ability to become the key to teaching and focus. The book is written from the practical needs of teaching. seize the core of a regional teaching. Since the 2003 publication and distribution. book loved by the majority of teachers and students to become the preferred supplementary book review of regional geography. The book features: 1. The implementation of geographic distribution of things. build spatial thinking map book is...
