Coding HTML CSS JAVA is a great practical guide to the basics of HTML, CSS and JavaScript coding. It will help with starting small and medium HTML and CSS projects, such as customising your blog or making your own website, and give practical examples of techniques that will aid you. Additionally you will be taken through the steps of adding images and video to your website, along with a troubleshooting guide for any problems that crop up. This book also covers JavaScript, which is vital if you want your website to do more than simply display information, such as membership login or feedback forms. JavaScript will enable you to generally provide more dynamic interaction with the user. Of course, you can use web editors and pre-written programs to do the job for you, but by learning some key coding skills, you will find you can create websites that truly have the edge on your competitors. Coding HTML CSS JAVA covers all the fundamental elements of the languages and how and where to use them. With easy-to-follow information, screenshots and helpful step-by-steps, this guide will take your web design to a new level!.
