Brand New Book ***** Print on Demand *****.Excerpt from Building Superintendence for Steel Structures: A Practical Work on the Duties of a Building Superintendent Tendent for Steel-Frame Buildings and the Proper Methods of Handling the Materials and Construction The problems of superintendence of steel frame structures are so different from those which arise in connection with other types of buildings that it has been necessary for men to make a specialty of building superintendence for steel buildings. The knowledge of the best types of design, the proper methods of fabrication, the tests which should be connected for quality of steel, and finally the proper methods of erecting the steel, all call for special training apart from the usual building superintendence methods. It is with the idea of giving engineer and layman the most authoritative information on this important subject that this little volume has been published. It does not attempt to go into the theory of design of steel structures, but confines itself to the problems of superintendence alone. The author is abundantly qualified to speak on this subject as he has erected many...
